

SETH A HENSON

70 Spencer Street
Lebanon, NH 03766
Cell (802) 356-2905
henson802@hotmail.com

SKILLS

- Proficient with most Adobe Products such as Photoshop and Illustrator. Comfortable with both Mac, PC and some Linux; intermediate HTML/CSS/Javascript knowledge. Created my own portfolio site: <http://www.sethview.com>
- Created a web view to display my company's Medical 3D STL model in a web browser with various tools to manipulate the model (JS/HTML/CSS): <http://www.sethview.com/3dView> — login: user | password: login
- Taught myself basic programming starting on LUA with CoronaSDK then moved on to briefly use Xcode with Objective-C. After experimenting with Objective-C / C++, started using Swift with SpriteKit framework to produce several mobile iOS Apps (simple games) independently. Since have learned using Javascript with HTML/CSS.
- Reliable, organized, attention to detail, makes work a priority, creative, committed to projects, and meets deadlines. Takes pride in work, communication, professionalism, and wants to help company succeed.

INTERESTS

- Front End / Back End Development, Database, Design, Game Development and General Programming

EMPLOYMENT

M2S -> MedStreaming -> Fivos Health -> Astute Imaging , West Lebanon, NH Dec. 2005 - 2022 (Present)

Imaging Specialist:

Daily tasks include help processing CT data information to correlate with expectations for M2S/Astute Imaging Preview Product. Successfully completed all on-site trainings for certification, worked up from Production Technician to Production Specialist. Trusted to do high-level Quality Control Checks for daily Production work - following strict SOPs and Protocols. No prior medical knowledge/experience before being hired but through great work ethics has learned all medical knowledge pertaining to job and has excelled with performance each year. Now collaborating with team in Clinical and Special Projects, while balancing executing Production.

Other:

Adapted to work in a HIPAA and ISO regulated environment. Received yearly reward for 'Most Innovative' and 'Employee of the Month' in an increasingly competitive Production environment. Always yearly great remarks for remaining high levels of efficiency along with quality and focus. Helped maintain and update internal website. Have consistently tried to improve myself by learning new computer tech by trying to apply it to various hobbies or even current job.

Transition:

During a shift in focus with overview of company, there was a lengthy transition needed at Astute Imaging which required independent, high quality consistent work during a Pandemic (2020-2021). Learned and excelled in more Clinical Projects / Trials requiring a high level of trust and attention to detail.
